

Gemini² Dual Containment Tanks

A Tank Solution for Chemical Management

Introducing the newest member to the Gemini product family, the Gemini². Gemini² has all of the same great features as the cylindrical Gemini and more. The Gemini² exceeds the EPA requirement for dual containment tanks and has a smaller footprint allowing for a maximum capacity of gallons to be kept in smaller spaces compared to the cylindrical Geminis. Slanted sump reservoirs can drain spilled chemicals directly into the primary tank. Interstitial fitting for leak detection sensor. For more information please call our sales team.

20 gallon size shown above, 18" x 18" x 22.5"
More sizes coming soon

"Gemini² Dual Containment Tanks, a tank in a tank to prevent chemical leak from primary tank"
